Who we are

Founded in 1975, Emanuel A. Bonello & Co became a member firm of Grant Thornton International in 1991. We are one of the leading accounting and business advisory firms in Malta. Our clients include privately held businesses, public interest entities and financial services entities.

Where we are

Our office is centrally located in Swatar, fifteen minutes away from Malta International Airport. Malta itself is less than three hours away by air from most major European cities and only a short hop from North Africa. Despite being the smallest state in the European Union, the City of London's 2008 Global Financial Services Index ranked Malta as the 4th financial services centre most likely to increase in importance in the next few years, and the 5th financial services centre where organisations are likely to start new operations in the next two to three years. UNCTAD's World Investment Report 2008 ranks Malta 4th globally for inward direct investment performance.

How we work

We believe there is no one size fits all

solution in business. We appreciate that each client is unique and that we can respond to clients' needs only if we understand their particular perspectives. Our real appreciation of the concerns and goals that drive our clients helps us achieve a sustainable working relationship based on mutual respect and integrity. We are committed to assist our clients to realise their business ambitions.

We ensure our clients have direct access to partners and senior staff, and we keep clients up to date with key business developments and news as it happens. Our commitment to clients also flows through to the relationship we build with our people. We are committed to their career and personal development, and support them to realise their full potential. We constantly focus on attracting more talent and on retaining it to ensure consistency for our clients.

Our investment in the infrastructure of the business is stronger than ever, both on national and international levels. We are large enough to take on the most demanding or specialist business, but operate in a flexible way which allows us to offer bespoke services to respond to our clients' needs.

What we have to say

“We aim to provide distinctive client service that customers perceive as being different in ways that are important to them.

We do this by:

- being clear and honest in what we promise to deliver
- being dedicated to conducting our work in a responsible fashion
- our commitment to technical excellence and the high standards of independence and objectivity to which we work

- being accessible and flexible to respond to clients’ needs
- delivering consistent service quality and response
- recruiting and retaining talented people who are passionate about making clients’ issues their own, and
- charging fair, commercially sensible fees that are pre-agreed with the client.

We believe these set of actions are what sets us apart from our competitors.”
